WELCOME TO KEY 2026

WHERE THE ENERGY TRANSITION HAPPENS

Dear Visitors,

We are delighted to welcome you to the place where the energy transition comes to life.

Welcome to KEY – The Energy Transition Expo. Thank you for choosing to join us on this journey, together with the many companies that have believed in our exhibition for years. In times as complex as the one we are experiencing, having the courage to stay the course is essential to maintain direction and drive meaningful change.

In just four editions, KEY has exceeded expectations, becoming the major event you are about to experience now occupying almost the entire exhibition centre.

As you move through the halls, you will recognise established and familiar spaces, but you will also encounter many new features that reflect the evolution of a market that, despite global challenges, continues to advance at pace.

Today, we carry a significant responsibility, which is also a great challenge: transforming

technological solutions into tangible change capable of generating real value for businesses, territories and society.

If you are here, it is because you have chosen to be part of a community moving in the same direction.

A community ready to share expertise, connect ideas and visions, and overcome boundaries to ensure that the energy transition does not remain on paper, but translates into actions, projects and measurable results.

At KEY, the future is not awaited, it is built.

Let's build it together. Now.

Alessandra Astolfi
*Global Exhibition Director,
Green & Technology Division*

Giorgia Caprioli
Project Manager

HITACHI

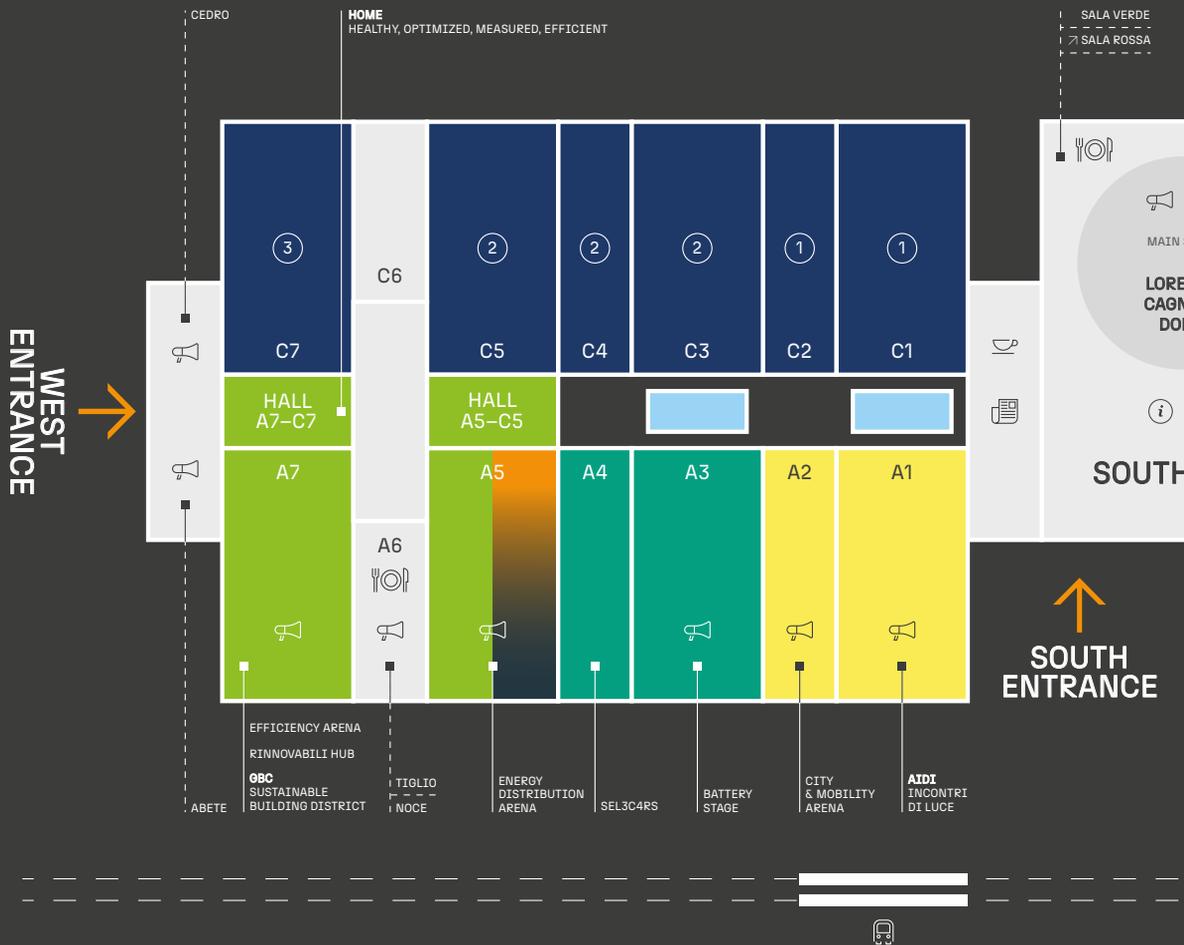

Inspire the next era of sustainable energy

In Hitachi Energy ci impegniamo per un sistema energetico mondiale più sostenibile, sicuro, resiliente e conveniente, rendendo l'elettricità più accessibile a tutti, affinché le società possano prosperare.

Vieni a scoprire il nostro portafoglio di prodotti, soluzioni e servizi:

ti aspettiamo allo Stand B3 - 209
