ABOUT HAMMER

Hammer is an Italian company operating since 1972 in Montegrosso d'Asti (AT), Piedmont. For over 50 years, we have **specialized in the mechanical processing of extruded aluminum**, synonymous with precision, quality, and reliability. Since 2024, under the **Hammer Energy brand**, we have been a key player in the **renewable energy sector**: our aluminum structural systems and various components for photovoltaic installations provide green energy to homes and businesses in Italy and across Europe.
